

SpatialQ Fact

The System for Retaining
Information and
Knowledge in the Natural
Resource Industry is
Broken

But Decisions are Based on the System

Since the System is Broken
the Fundamental Blocks
for Efficient, Cost Effective
and Timely Decisions are
also Broken

Why is it Broken?

Information is
decentralized
across a plethora of
platforms.

Where is it?

- Local Hard Drives
(* .doc, * .pdf,
* .xls, * .jpg, * .avi,
* ...)
- Servers
- Internet
- Third Party Data
- Email
- GIS Systems
- Consultants
- CD, DVD, Flash
Devices
- Other Storage

So What Can Be Done?
